EXECUTIVE BRIEFING

REF: DV-INV-2026-Q4

Protecting Diaspora Capital in Kenya

Bridging the critical trust gap between 3M+ Kenyans abroad and remote project execution across real estate, construction, and commercial investments through certified, conflict-free ground operatives.

ANNUAL REMITTANCES	DISPUTE / LOSS RISK	BENCHMARK TESTS	GROSS UNIT MARGIN
$4.2B+ USD	30 - 40%	36 / 36 PASS	38.4%

1. Market Opportunity & Problem Statement

01 / OPPORTUNITY

Over **$4.2 Billion USD** is remitted annually by Kenyans in the United States, United Kingdom, European Union, and the Gulf region. Approximately 60% of these transfers are earmarked for land acquisition, residential construction, family care, and small business capitalization.

> **CORE MARKET DILEMMA**
> *"Diaspora investors rely on relatives, informal caretakers, or self-interested contractors. Without independent physical inspection, over 30% of projects suffer catastrophic variance: phantom cement purchases, misaligned boundary beacons, halted construction with continuous billing, or fictitious medical and business expenses."*

DiasporaVerify solves this with an institutionalized, tech-enabled verification layer: vetted independent professionals (registered architects, surveyors, and engineers) dispatched via a centralized Nairobi operations center, producing tamper-evident, SHA-256 cryptographically hashed dossiers.

2. Recent Platform Upgrades Delivered

02 / CORE CAPABILITIES

Dual-Timezone Intake & Booking

Real-time appointment engine synchronizing diaspora client time across 9 major global hubs (London, New York, Dallas, Los Angeles, Dubai, Berlin, Toronto, Sydney, Melbourne) directly to Nairobi EAT with automated RFC 5545 `.ics` calendar generation.

`Global Hubs: 9 | Auto-Sync: 100%`

$ Multi-Currency Escrow & Stop-Payment

Real-time multi-rail financial ledger across 7 currencies (KES, USD, GBP, EUR, AED, CAD, AUD). Automatically cross-references contractor claims against verified on-ground materials to trigger formal **Stop-Payment Advisories**.

`Discrepancy Engine: Live | Currencies: 7`

Construction Oversight & Video Markers

Interactive before/after camera angle comparison slider and site walk-through video inspection timeline (00:00 to 04:12 EAT) exposing unpoured columns, defective rebar spacing, and missing cement inventory before disbursements.

`Photo Angles: Fixed GPS | Video HUD: Active`

Cryptographic Evidence Vault

Each inspection photo and telemetry record is digitally fingerprinted with SHA-256 hashing, orientation metadata, and geofenced timestamping, creating tamper-evident court-admissible audit dossiers.

`SHA-256 Stamp | Tamper-Proof Invariant`

Field Agent Mobile Mission HUD

Calibrated mobile interface for ground operatives featuring GPS arrival check-in (≤150m geofence), digital conflict-of-interest signoff, and offline queueing for remote rural land parcels.

`GPS Geofence: 150m | Offline Buffer: Active`

HQ Operations Command Desk

Centralized coordinator cockpit with 14 specialized tabs: verifier assignment, QA review sign-off, live appointment roster, dispute mediation, and financial payout ledger.

`Workspaces: 14 | Anti-Collusion: Locked`

3. Unit Economics & Monetization Model

03 / BUSINESS MODEL

Representative Unit Economics (Standard Single Site Inspection)

38.4% CONTRIBUTION MARGIN

CLIENT INVOICE	FIELD AGENT FEE	LOGISTICS / FUEL	GROSS MARGIN
KES 14,500	KES 7,500	KES 1,430	KES 5,570
~$112 USD Base Fee	~$58 USD Payout	County Travel Tariff	38.4% Net Platform Take

Beyond single inspections, DiasporaVerify captures high-LTV recurring revenue through **Continuous Construction Monitoring Subscriptions** (KES 4,500 / month per site for bi-weekly check-ins) and **Institutional Due Diligence** packages for Saccos, Chamas, and diaspora land investment trusts.

4. Prioritized Execution Plan (Immediate to Long-Term)

04 / ROADMAP

The roadmap is structured into three clear execution horizons, starting with **turnkey immediate steps** that can be completed within 24 to 48 hours:

URGENCY	ACTION MILESTONE	SCOPE & IMPACT	TIMELINE
IMMEDIATE	**Git Checkpoint & Build Lock**	Stage and commit the 22 verified modules into Git repository; lock release v2.4 tag.	Next 2 Hours
IMMEDIATE	**Production Supabase Setup**	Provision production database tables, apply Row Level Security (RLS) migrations, and store environment keys.	Next 24 Hours
IMMEDIATE	**M-Pesa Daraja B2C Keys**	Configure live Daraja API credentials to enable instant automated payout to field verifiers upon QA sign-off.	Next 48 Hours
IMMEDIATE	**Pilot Verifier Onboarding**	Onboard initial cohort of 20 certified BORAQS/IEK professionals across Nairobi, Kiambu, Machakos, and Kajiado.	Next 72 Hours
NEAR-TERM	**Drone Photogrammetry Pilot**	Partner with certified UAV pilots in Nairobi to attach high-altitude orthomosaic boundary maps to land inspection dossiers.	Weeks 2 - 4
NEAR-TERM	**Corporate Sacco Portal**	Scale bulk batch parcel ingestion for UK and US Kenyan investment saccos executing 50+ plot purchases concurrently.	Weeks 3 - 5
NEAR-TERM	**Bank Escrow Partnerships**	Integrate trust account APIs with major diaspora remittance banking partners (KCB Diaspora, Equity, Stanbic).	Month 2
STRATEGIC	**Regional Corridors Expansion**	Replicate Kenyan operations model into Uganda, Rwanda, and Ghana diaspora property markets.	Months 3 - 6

URGENCY	ACTION MILESTONE	SCOPE & IMPACT	TIMELINE
STRATEGIC	**Series Seed Capital Round**	Targeting $750k - $1.2M USD seed round to accelerate 47–county operative coverage and aggressive US/UK marketing.	Q1 - Q2 2027

5. Technical Resilience & Compliance Invariants

05 / VERIFICATION

ZERO-EMOJI INVARIANT

100% SVG / Typography

Zero unicode emojis across all UI, badges, and documentation.

STRICT PRIVACY (RULE 2)

Zero Contact Leak

Strict IDOR isolation. Operatives never view client private details.

AUTOMATED TESTS

36 / 36 Passing

Business logic, role security, and Lighthouse CLS benchmarks.
